

CONSULTANTS DIDN'T WE GOT THE RIGHT BSA CONSULTANT

BSA (BSA) compliance is a complex interplay between fire and structural risk with a lot of boxes to tick to comply, not getting it right first time will be a costly

Who you choose to help you compile your Building Safety Case and Report will play a significant role in the success. But what does good look like when it comes to BSA support and how can you choose wisely?

A good consultant will...

Complete at least one site visit during Gap Analysis stage

Your site is unique and so is your risk. There is no one size fits all solution for risk assessment.

Not rely on desk-based research alone

This is vital! A Gap Analysis completed in your consultant's office will never give the required insight into the risks
